

## **COVID-19**

As we are all well aware, the COVID-19 pandemic has affected all of us in how we deliver our projects and engage with each other.

James Taylor and Associates has successfully migrated project work out of our physical office and onto digital and online platforms.

The James Taylor and Associates team are now working remotely to enable us to address our concerns for the health and safety of our people and the wider community of family, friends and clients.

For those clients with projects on site, we have developed a protocol for continuing to deliver services for active sites, which we can share with you.

Although the way we work has been changing, our commitment to delivering high quality service to our clients remains unchanged.

Thank you for your ongoing support of James Taylor and Associates. We wish you well in navigating this challenging time.
