

James Taylor & Associates

Civil & Structural Consulting Engineers

GOVERNMENT

EDUCATION

James Taylor & Associates is an Australian private company specialising in the field of Civil and Structural Consulting Engineering.

Based in Sydney, Australia, the company was established in 1980 by James Taylor, and has provided high quality services for a wide variety of projects that can be seen nationwide and internationally.

Our team combines the professional knowledge of Civil & Structural Engineers and Draftsmen whose experience go back to the last three decades, as well as the creative talent of our most recently graduated engineering professionals.

James Taylor & Associates offer a range of services in the Civil & Structural Consulting fields, such as:

- + **Structural Analysis**
- + **Structural Design**
- + **Civil Design**
- + **Detail Drafting**
- + **Site Inspections**
- + **Design Certification**

Please call us to discuss your projects and engineering needs.
